Closing comments? Thanks for coming

Darren Yancy invoiced the HOA for \$200 webmaster services in lieu of full payment of his 2018 dues. This HOA expense was never approved by the Board, or membership. Darren did not disclose to the Board or membership he was charging for his services. The Board decided the expense was not allowed and his dues must be paid in full.

The HOA membership voted for Darren to give web site permissions to Gene Young. Darren refused to give website permissions to Gene Young.

The Board demand full dues payment, removal of HOA material and website from the internet. Darren filed a lawsuit against the Board. The lawsuit has no claims or remedies relative to the website or delinquent dues.

Darren has refused to pay his 2019 dues.

Open discussion.

I move that the Board pursue action per our CCRs and with attorney guidance for collection of dues, non-compliance with Board decisions, and non-compliance with the HOA membership's vote.

The new Board will be required to take action per the membership's vote.
